Social events

Race night was a big success, enjoyed by all who attended and managed to raise £460 in total; my horses didn't perform too well but it was still great fun and there were lots of smiling faces, as the pictures on Facebook will verify. (20+) Facebook follow this link to view them.

Greens Staff

As we are all aware the continuing incessant rain fall has resulted in many more restricted access or course closures than ever before, which is as frustrating for the greens staff as it is for members, as the greens staff take great pride in keeping the course open as much as possible. The inability to get heavy machinery onto the course is greatly limiting what can be achieved and even essential work, like 'swishing the greens', takes much longer as they must walk the course in these conditions. Pruning is being done by hand with the debris taken away by wheelbarrow and, because of continual checking & clearing by rodding, all the drains on the course are working well. It is just the continuing dreaded increase in rainfall across the UK that is outside of our control. Follow the link to see a nationwide report

Bar Products

In late November 2023, we decided to introduce our own brands of Stout and Lager. This was prompted by the poor bar sales over the summer, the constant increases in prices and the erosion of our profit margins. In fact, for the first time in many years we expect to make a loss on the bar in 2023/24.

Guinness in particular has increased their price by over 35% in 3 years. The last increase forced us to sell a pint for £6.00 to maintain our already low profit margin and we thought this was too expensive for our members. We are unable to subsidise the price like some other pubs because our turnover is very low in comparison. Fairways Black branded stout sells for £4.50, significance less than Guinness and the initial feedback is positive, but the trial needs to continue a little longer before reaching any conclusions.

However, we have received several negative comments regarding the taste of the branded Fairways Lager, and we have spoken to Greene King with a view to switching back to Carling or something else.

Finally, some members have asked why we don't have a choice of draft bitter. This is because the suppliers only provide draft bitter in large barrels and our turnover during most of the year is not enough to avoid throwing a large amounts of beer down the drain. We have been complaining about this for a long time, but we were informed just before Christmas that we can now purchase guest ales in smaller barrels. This enabled us to offer a choice during Christmas and will continue to do so throughout the year while there is a demand.
