Las Vegas Scramble

Many thanks to the Social team and C & H/C for organising and running a very successful event on Saturday 26th October. The weather was kind enough to allow all 18 holes to be open and the club house had a continuous buzz to it throughout the day. The organisers want to thank Shervill golf for the donation of golf ball prizes and Alan Smith for the donation of Magna Chocolates.

The event raised £300 for Severn Hospice the captains' charity so a big thankyou to all those who took part.

Group challenge

On an annual basis two of the playing groups challenge each other to a match based on club handicaps. The format is Match play off the lowest H/C in each 4 ball with 2 points for a win and 1 point for a draw. The very nice trophy, which aptly depicts old men playing golf, was donated by Tony Creswell a member of the "Moaners" Group. Unfortunately he has not handled it since the onset of the competition in 2021 as the "Owners" group have prevailed ever since. This time it was a very close battle with 1 point deciding the outcome. A very enjoyable day which ended in the club house enjoying refreshments.

Course playability during poor weather

Hopefully this winter season we will not experience an excess of bad weather like last year, however, to keep your course & clubhouse open for members as much as is possible in poor conditions the board are considering introducing a traffic light system for course playability, when conditions dictate such action is necessary, similar to the outline below.

Currently course closures are based upon the assessment that it is not safe for personal buggies to be on the course, although it is recognised that on some occasions it could be safe to play the designated holes for members who use trolleys with winter wheels, or indeed only those members able to walk using a carry bag.

Traffic light system of course playability

Green - No restrictions

Amber - No club buggies but personal buggies and trollies permitted, winter mats optional.

Red - No club or personal buggies, but trolleys with winter wheels permitted, winter mats compulsory

Black - Carry bags only, winter mats compulsory.

As well as communicating the traffic light on IG, there would also be a flip chart style board on the first tee indicating the colour for the day. We did consider the use of tee pegs as an alternative to mats, but we have concluded that this can still result in divots being taken.

The intention would always be to enable as many members as possible to play the course so the red and black categories will be the exception rather than the rule, restricted to the wettest periods only.

Autumn golf

Let's all do our part in our golf community. Autumn golf can be a tough old thing...all those ropes blocking the way to the green. However, let's all show a little respect to the course. The ropes are there to protect to the course so please keep trollies and personal buggies away from tees, greens and where possible keep to the paths. Repairing damage on the course is near impossible this time of year so please help each other get around the course especially for those less able.
