## Wine & 9

These Ladies events are proving very popular in the good weather with 9 holes of golf followed by refreshments and social time. All ladies are welcome to join us and make new friends. There is 1 event each month, either a Monday or Wednesday evening, the next one being Monday 14th July. Ladies sign up to play and teams are drawn. The format is Texas Scramble so fun to play with no pressure on the ladies, all welcome. The winning team members receive a little prize, courtesy of the Lady Captain. Some ladies even attend just for the wine!

---

## Volunteer projects

Very many thanks to the member volunteers who committed to help Chris Downing carry out some much-needed maintenance to the balcony furniture. This is a large task requiring preparation of the metal frame and wooden slats before sprucing them up with a lick of paint to bring a nice fresh clean look to it all. The frames are being painted with black hammarite and the slats with good quality garden furniture paint. At the time of publishing there is still time to get involved in this worthwhile project which enhances the experience of member and visitors alike. Just turn up and help or contact Christine.

---

## Robotics

**IMPORTANT** Robots must not be turned off by golfers under any circumstances, any future instances will be treated under the disciplinary process as if a robot is down for a prolonged period there is a danger that the mapping will be lost.

Two robots have been repositioned to side of the 1st tee. This has had a massive impact on the efficiency of those robots. To the extent that robots are now idle.

The programming of the robots is being improved. Several improvements to the 3rd were made and additional new areas by the 8th tee were included.

The rear rough of the 9th has been a great success and I can start to see the consistency of cut.

We have a new 10mm spacer from Kress which is a game changer. I would recommend that the programming be repeated with the new spacer at some point. This will improve efficiency.

We are starting to work on the back 9 with the first robot coming out to play in early July. We will push all the lessons learnt into the 18th and 17th semi rough areas.

## Lost keys

A Volvo key ring belonging to Geoff Sellars has been collected from the Pro-shop by someone claiming they knew that the keys belonged to Geoff and would take them to him. Unfortunately that was about 4 weeks ago, and the keys have still not been returned, however, this is just regarded as a friendly gesture gone wrong so Geoff would be happy to have the keys returned and would be able to thanks the person with a drink at the bar.

## We are Hiring

As the golfing days get longer, we are looking to increase our staffing levels to ensure a good service to our members and guests throughout the day. Opportunities are available within the bar and catering department, so If you are aware of a chef, cook or waiting-on & bar staff! who might like to join our team we would love to hear from you. In the first instance if they want to apply or find out more, please email our Food & Beverage Manager, Oli on [fbmanager@lhgolfclub.co.uk](mailto:fbmanager@lhgolfclub.co.uk)
